Pana-Scan™

120 STAND-ALONE TRANSPARENCY & FILM SCANNER

Scan 120
Transparencies
& Negatives
View images on
your HD TV

120, 220 & 620 (6x4.5, 6x6, 6x7, 6x8, 6x9 images)

The Pana-Scan™ 120 Stand Alone Transparency & Film Scanner enables you to **quickly and easily convert your cherished medium format transparencies and negatives into high resolution 14 megapixel digital images** without the need to be connected to a computer. You can show all of your precious images and memories on a HDTV, print, share, email, archive and store them too.

Just place your transparencies or negative in the supplied film holder. Insert the holder into the Pana-Scan™. View the images on the 2.4" LCD screen. Press the copy button. The images are stored on an SD memory card ready for you to use in your computer, view on a HDTV, print, email, etc.

The Pana-Scan™ Stand Alone Transparency & Film Scanner is compatible with Windows 7, 8, 10, XP, & Vista (32 bits/ 64 bits), and Mac OS 10.5 – X Yosemite. It uses a USB 2.0 port on your computer for communication and power when used as a card reader for viewing stored images. When scanning, the Pana-Scan™ Transparency and Film Scanner operates with the AC adapter (included) or plugged into one of your computer's USB ports (cable included).

The Pana-Vue® Pana-Scan™ Transparency and Film Scanner comes with ArcSoft MediaImpression™ software for both MAC and PC to edit, crop and enhance your new digital images in your computer.

Instantly Turn Your Cherished 120mm Transparencies & Negatives to Digital Images
