CPM/Delta Focusing Cloth

This classic focusing and field cloth is constructed of 100% American cotton, making it cooler, lighter, more durable and more snag resistant than the conventional double-knit polyesters. The front is flat white, the reverse dead black. One edge is covered with a velcro strip, allowing the cloth to close around the largest camera or smallest telephoto lens. Each corner has velcro strips which can be attached to each other or to the velcro weights. Each weight has velcro on both sides, allowing unlimited weights to be piggybacked for special field requirements.
