We all have pictures and business cards in drawers and shoeboxes. They represent cherished memories that we would love to see and share with our friends and families, and contacts we do not want to forget. We're just waiting for an easy, affordable way to turn them into digital files so we can view them, email them, print them, store them and organize them.

Pana-Vue® offers the solution!

The **Pana-Vue® Pana-Scan™** Picture and Business Card Scanner enables you to quickly and easily convert pictures up to 4x6 into high resolution 5 megapixel digital images without the need for a computer. Business cards can be easily read by the OCR software and saved to a database, converted to vCard, imported into Outlook Address Book, saved in Excel format, or saved as a JPEG.

The **Pana-Vue® Pana-Scan™** Picture and Business Card Scanner gives you an easy way to print, share, email, archive and store all of your precious images and contacts on an SD card or USB Flash drive. You can then use the scanner as a card reader to transfer them into your computer.

The **Pana-Vue® Pana-Scan™** Picture and Business Card Scanner is compatible with Windows® XP, Windows® Vista, and Windows® 7, and MAC operating systems. It uses a USB 2.0 port on your computer for both communication and power when you use it to read your images on the card

The **Pana-Vue® Pana-Scan™** Picture and Business Card scanner comes complete with:

- ArcSoft® MediaImpression software for PC and MAC to allow you to edit, crop and enhance your photos.
- ArcSoft® BizScanner OCR software for PC that allows you to read and manage business cards.
- AC adapter.
- USB cable to plug into your computer's USB 2.0 port.

The **Pana-Vue® Pana-Scan™ Print and Business card Scanner** is available from retailers nationwide.

The **Pana-Vue® Pana-Scan™ Slide & Film Scanner** is distributed exclusively by Argraph Corporation, the international supplier of photographic / imaging products. Argraph Corporation and its subsidiaries has been a leading supplier of photographic / imaging products since 1953. Headquartered in Carlstadt, NJ, Argraph offers an efficient distribution network featuring immediate delivery of over 7,000 products to retailers across the country, and around the world.
