Our most compact, full-sized tripod kits specifically designed with the traveler in mind.

T-X Tripods + E-Ball Heads. The Most Compact, Full-Size Travel Kits

E-Series Ball Head

T-X Series Kits

There are many times when people are traveling or just shooting in the neighborhood that they want a full sized tripod that is a bit sturdier and taller than our famous T-005X tripods to use with longer lenses and to shoot on a windy day. Yet, they still want it to fold up small and lightweight so they can easily carry it in a back pack or carry-on luggage.

Sirui and Argraph have teamed up to do just that with two new series of tripod kits - The T-P and -T-XL. Each series offers two tripod and head combos to make it easy to choose the right product at special combo pricing.

The TP series consists of our best-selling T-1005X packaged with an E-10 head and the sturdier T-2005X packed with the E-20 head. Both are less than 15" when folded for ease of carrying yet will handle 17.6 lbs or 26.5 lbs load respectively and have a 6 year warranty.

For those who need a taller tripod there is the New T-XL series which fold to 18" and extend to almost 6 feet. These also include the E-10 and E-20 head respectively and have a carrying case and 6 year warranty.

These new kits make the perfect companions for people shooting sports, nature, bird watching or traveling. They are great for soccer moms and dads, students, and weekend warriors.

Sirui folds small, stands tall and holds more weight for its size than the competition.

What's included:
E-Series Ball Head,
Short center column,
custom case, padded strap,
tools, instruction manual,
warranty card

T-1005P
Includes E-10 Ball Head

T-2005P
Includes E-20 Ball Head

Features

1. The ideal tripod for travelers - full-sized, but folds down small
2. Legs fold up 180° for extra compactness
3. The center column can be inverted for angle shots
4. For speed and convenience, each leg has an automatic leg angle lock mechanism
5. Short center column is supplied for low angle or macro shooting.
6. Three position leg angle for uneven terrain.
7. Made from Aircraft Grade Aluminum Alloy
8. T-X 2 Series has retractable spikes for outdoor photography.
9. Short center column can be screwed into standard center column for increased height.

E Series Ball Heads

1. Separate adjustment knobs for panning and main locking for maximum control and flexibility.
2. Bubble level for fast horizontal alignment.
3. SIRUI's unique locking mechanism provides unequalled locking force even with loads up to 17.6lb (8kg) for the E-10 Ball Head and 26.5lb (12kg) for the E-20 Ball Head!
4. Rugged metal locking knob offers a wear-resistant surface, solid grip.
5. Precision built to provide smooth, vibration-free movement.
6. E-10/E-20 Ball Heads come equipped with Sirui Arca compatible TY-50E Quick Release Plates.
