Argraph's Pana-Vue® Pana-Scan Scanners Quickly and Easily Preserve Precious Memories

We all know how many old photos, slides and negatives people have in drawers and shoeboxes. We ALL have them. They represent cherished memories that we would love to see and share with our friends and families. We're just waiting for an easy, affordable way to turn them into digital images so we can view them, email them, print them, share them, store and organize them.

Pana-Vue® Pana-Scan scanners offer high quality affordable solutions.

Pana-Vue® Pana-Scan™ Slide & Film Scanners are simple, easy to use devices that enable you to quickly and easily convert your cherished 35mm slides and negatives, 126 and 110 negatives into high resolution digital images at the push of a button without the need for a computer. The **Pana-Vue® Pana-Scan™ Slide & Film Scanner** gives you an easy way to print, share, email, archive and store all of your precious images and memories.

The low cost 14 MP **Pana-Vue® Pana-Scan™ Slide & Film Scanner** allows you to digitize your images in your home or office without having to use high priced outside services. Just load the slides or negatives into the carriers supplied, or get the optional 110 or 126 carriers, view them on the 2.4" TFT screen, and press the button. They are instantly digitized and saved on the SD card you have inserted in the **Pana-Scan™**.

The **Pana-Vue® Pana-Scan™ Picture and Business Card Scanner** enables you to quickly and easily convert pictures up to 4x6 into high resolution 5 megapixel digital images without the need for a computer. Business cards can be easily read by the OCR software and saved to a database, converted to vCard, imported into Outlook Address Book, saved in Excel format, or saved as a JPEG. The **Pana-Vue® Pana-Scan™ Picture and Business Card Scanner** gives you an easy way to print, share, email, archive and store all of your precious images and contacts on an SD card or USB Flash drive. You can then use the scanner as a card reader to transfer them into your computer.

The **Pana-Vue® Pana-Scan™ Scanners** are compatible with the latest Windows and MAC operating systems. They come complete with software and all necessary accessories.

The **Pana-Vue® Pana-Scan™ Scanners** provide great, inexpensive activities that will be especially enjoyed during family evenings sitting around and organizing their kids', parents', and grandparents' pictures. Pana-Scan is a great way to bring the generations together and let the whole family share their own "family photo history".

The **Pana-Vue® Pana-Scan™** Scanners are distributed exclusively by **Argraph Corporation**. Argraph Corporation and its subsidiaries are leading manufacturers and distributors of photographic and imaging products since 1953. Headquartered in Carlstadt, NJ, Argraph offers unique and innovative products through retailers across the country, and around the world. Additional information is available at www.argraph.com.
